Dorian a little right, claim or title rather than sacrifice or jeopardize a life. It is a decided shift in values-a distinct variation in estimates. Life has given place to the Pasteurs and Listers. Whole armies of men are now absorbed in the study of patho logy, intent on discovering means of allaying pain, curing and especially, preventing disease, prolonging life. Hospitals, infirmities, sanitariums, general and specific, have sprung up on every side for the cure of victims of every ill that flesh is heir to, and the discovery of a new antidote, serum, or anti-toxin, is hailed with greater acclaim by the world than was even a returning conquering hero. We have grown sensitive on the subject of human suffering and woe. And although, through the facility with which news is disseminated, we are confronted every day with accounts of accidents of one kind or another, we can still shudden over disasters of more than ordinary intensity or extent and sympathize with wrung when hearing, of an awful famine in India, with all the harrowing details of exhaustion, inani tion and death. We contemplte with fear and awe the description of

These other calamities are sudden and sensative, they are focussed intensely and briefly ulus, and we accordingly abbor the sameness. But we cannot escape the the conclusion of these reflections. nore an enemy of known strength and almost equal ability in concealing it-in throwing us off our

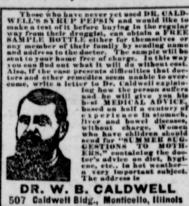

And here we have the knowledge. that the tribute partly at least, in our ignorance, and carelessness, paid to tuberculosis or consumption in human life, every year, is simply appalling. To narrow down the question, and to give up opportunity for proportionate and valuable thrills, the loss in one year, in the United States, or in Kentucky alone, in 15 years, atributable to this source, far surpasses the catastrophe of last December in Italy. The last scourge of yellow fever in Louisiana is barely discernable on the same horizon, and California visitation becomes well nigh insignificant. One might think almost, that this situation is overdrawn. But it decidedly is not. It is in strict accord with the facts! and for this very reason, is all the more calculated to make us pause and thing thoughts worth while. The more horrified we are at the previous pictures, and considerations, the more we ought to be at the contemplation of such a deplorable situation, and the better it will be for us The first step in the correction of an evil is to become cognizant of its existence, to understand its menace. Better late than never, is one of

reason for the oposite cause.

ing the summer months, and this is especially the time that it is most important t ep the bowels open. The heat taints food, there are germs in the water, and even fruit has its dangers. For a dozen and one reasons the bowels should be kept open—you should have at least one good passage a day, and in the case of children and young people, two a day is better. The best way to obtain such elief, and to regulate the stomach, liver and bowels, is by the use of DR. CALD-

WELL'S SYRUP PEPSIN, the great laxative tonic. It is not a temporary relief like salts and purgative waters, and it does not gripe, like tablets and pills. It is so pleasant to take, and so gentle in action, that children prefer it to any other laxative. It is the children's ideal remedy for their stomach, liver and bowel troubles. Use it for constipation, indigestion, sick headache, biliousness, loss of appetite and sleep, drowsiness after eating, diarrhoea, "Summer Complaint," gas or wind on the stomach, etc.

A bottle can be obtained of any druggist at 50 cents or \$1.00. Thousands of families keep it regularly in the house be-cause a laxative may be needed at any moment, and those who once use DR. CALDWELL'S SYRUP PEPSIN

S.S.S. SKIN DISEASES

the blood; the cuticle is always healthy where the circulation is free from impurities. When the blood is infected with acrid or unhealthy matter it impurities. When the blood is infected with acrid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness. Instead it irritates and inflames the delicate fibres and tissues around the pores and glands and produces some of the many forms of skin disease. The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acrid humors with which it is filled, into the sensitive membranous fiesh lying just beneath the outer covering, and surrounding the countless nerves, pores and glands. This explains why scratching the outer skin affords no relief from the itching and burning. S. S. S. cures Skin Diseases of every character by purifying the blood. It goes down into the circulation and removes the humors or acids which are goes down into the circulation and removes the humors or acids which are causing the trouble, builds up the weak, acrid blood, and permanently cures every variety of skin affection. Local applications can only soothe; they never cure because they do not reach the blood. S. S. S. goes right into the circulation, reaches the trouble and cures it by removing the cause. Book on Skin Diseases and any medical advice free to all who write.

CLAIMS ALLOWED FOR VACCINATING

After twice refusing to allow the aims of City Health Officer H. P Sights and City Physician W. J. Bass There are eight prisoners still at for their services in vaccinating the entire city during the smallpox epidemic last February the lower board of the general council last night re Police Sergeant Lige Cross found considered its previous action and be temporary—unless the voters in It was a barlow knife and both Al Foreman was the only membe August 17, declare for perpetual dry- ports of a cutting have been received and Dr. Bass \$118, making a total of \$406.50.

The claims were presented the firs of March and were included in the ; no of not 1, nop eanap on recommendations of the joint finance committee, but both boards of the council turned them down. Last ight when Chairman Lally, of the finance committee, read the dist o allowances the claims were also in cluded, but placed separately. The general claims were first allowed and then a vote taken on the claims o the physicians, resulting in 4 year and 7 nays. The vote was: Yeas-Lally, McCarthy, Van Meter and Nays-Foreman, Bowers, Young. Duvall, Hannin, Mayer, Wanner and

After the council had taken up and isposed of nearly all the business efore it. Dr. Sights entered. Coun silman Wanner made a motion that the council give Dr. Sights a hearing with a view of reconsidering its action. This was allowed unanimously and Dr. Sights took the floor his morning for Winnsboro and He said that he thought it was just and right that he and Dr. Bass Mineola, Tex., and New Mexico for should receive the pay for their work. He stated that there was no ordi nance, compelling the health officer to do vaccinating and that he did the work with Dr. Bass under instruc ions of the board of health the gave their time to it, and when they began they did so expecting to be paid for it. He said he stayed up at nights and sacrificed his time, and he had it to do over again he rould not do it for twice the amount e claimed. He said Dr. Base was

> City Solicitor James Campbell was sked to give his opinion and he poke both in the capacities of an official and a citizen. As an official he stated that Drs. Sights and Base could not recover the claim by bringing suit. As a citizen he said there were two sides to the matter and that

NEIGHBORING COUNTRY MIXED.

New York, Aug. 3 .- John Norris, chairman of the committee on paper of the American Newspaper Publishers' association, has issued a bulletin relating to the tariff on purp and paper in which he says: In the proposed tariff bill the publishers have secured the abolition of a duty of \$1.67 per ton on ground wood. They have also obtained a reduction of \$6 to \$3.75 a ton on print paper, a sav ing of approximately \$2,700,000 a year in the cost of news print paper The publisher to the consumer. had asked for free print paper and a select committee of the house had recommended a rate of \$2 per ton which the senate raised to \$4. The conference agreed on a compromise ate of \$3 when President Taft an rounced to congressional callers about July 24 that a \$4 rate was necessary for the application of the protection principle to print paper. The president made the announce ment without full ascertainment of he cost and in utter disregard of the assurances that he had given in favor of a lower rate. In accordance with that intimation from the president the conferees reported \$3.75 per ton which probably will be adopted.

"If the publishers had not inauguated the campaign for a reduction of the duty, it is likely that the paper makers would have secured an increase from \$6 per ton. Under the new schedules each province of Canada is regarded as a unit, so Nova Scotia and New Brunswick, which have not placed restrictions upon the exportation of pulp paper, can immediately avail themselves of the new tariff rate. Quebec has a stumpige tax of 25 cents per cord of wood cut from the crown lands for exportation, from which the province obtains a revenue of \$25,000 per annum. "American paper makers hold

eases on 12,000 square miles of crown lands in the province of Que bec for which they pay an annual and in addition the fixed price of 65 cents for every cord cut. The leases expire in 1910. It is given out that within three weeks from the date of the signing of the Payne bill, terms of new Quebec leases will be promulgated. It is barely possible that Quebec may regard the new legislation as the best obtainable and abolish the stumpage tax. If it should prohibit the exportation of pulp wood cut from the crown lands the Ameriena owners of timber rights are prepared to set up a complaint of confiscation, A serious tangle is threatened with the possibilities of a pulp wood shortage and a trade war between Canada and the United States which have a business interchange to the extent of two hundred and fifty million dollars per annum.
